100% Malbec

Grapes are hand harvested in the second and third week of March. High density at 6,850 plants per hectare leads to maximum expression of the terroir. Once crushed, 30% of the juice sees a short time in neural oak, while the remainder is fermented in a mix of concrete and steel.

"Silky mouthfeel of red bell pepper, raspberry, and undercurrents of cocoa powder. Savory notes with some tea leaf and fig with a roundness of a hint of toffee. Approachable upfront with a balance of acidity and tannins. Expressive and complex that leads to a different experience with every sip."
